

Rakesh Sawant

AI/ML Engineer

Pune, India · rsawant19599@gmail.com · github.com/Cheeriooo · linkedin.com/in/rakesh-sawant

SUMMARY

AI/ML engineer building retrieval systems, GenAI pipelines, and enterprise intelligence that holds up in production — spanning synthetic data, Hybrid RAG, knowledge graphs, and semantic retrieval.

EXPERIENCE

AI/ML Engineer — Strategy (formerly MicroStrategy)

2025 — Present

Embedding AI capabilities into enterprise business intelligence platforms. Working across retrieval systems, model orchestration, scalable AI services, distributed data workflows, and backend APIs.

AI Engineer — Cognizant

2023 — 2025

Hybrid RAG, synthetic data generation, and knowledge graph construction for enterprise search and reasoning use cases.

ML Engineer — Cognizant

2022 — 2023

Semantic search and ML pipeline development.

EDUCATION

B.E., Electronics & Telecommunication

Savitribai Phule Pune University (SPPU) — 2017 — 2021

FOCUS AREAS

Retrieval-augmented generation · knowledge graphs · synthetic data · semantic search · agent architectures · scalable AI services
